

Sliding Gate Valve 8040

GS 1 series - DN 15 up to DN 150

Pneumatic sliding gate valve for shutting off liquid and gaseous media for industrial applications

- Space saving wafer-type construction
- Lowest possible weight (especially in larger sizes)
- Low operation noise level
- Control of high differential pressures with small actuators
- Greatly reduced energy consumption rates due to short strokes and low actuating force
- High Kvs-values
- Meets the requirements of TA-Luft 2021
