

GS 1 series - DN 15 up to DN 150

Pneumatic control valve with integrated positioner for regulating liquid and gaseous media for industrial applications

- Space saving design and low weight
- Fast response due to short strokes
- High Kvs- (Cv)- values
- Tight shut - off even at higher temperatures
- No exposed moving parts
- No steady- state air consumption
- Operation independent of mounting position and supply pressure variations
- Not sensitive to vibration
- Instrument grade air not essential
- Software configurable flow characteristics
- Protection Class IP65
- Meets the requirements of TA-Luft 2021
